Technical Skills

Frontend

HTML, CSS, Javascript, TypeScript, React.js, Next.js, Redux, JQuery, Bootstrap, Tailwind CSS, Wordpress(basic)

Database

MongoDB

Backend

Node.js, Express.js

Others

Git, Notion.so, Cpanel, Adobe Photoshop

Professional Experience

Fullstack Web Developer, Halcyon Digital

01/2022 – present

Mirpur DOHS, Dhaka, Bangladesh

I independently crafted responsive web applications using React, Next.js, and Redux, ensuring seamless user experiences. I designed RESTful APIs with Express and Node.js, integrating databases like MongoDB. My responsibilities encompassed end-to-end development, version control with Git, and efficient deployment.

Projects

Gazi Group, E-commerce

- A single-vendor e-commerce
- Effortless management of products, orders, and sales for vendors.
- An admin manages events.
- Live link: <https://gazihomeappliance.vercel.app> 🌐

Maxxis Tire

09/2022 – 11/2022

- Tire Services website with good-looking UI
- Roll base mobile number authentication and Custom Dashboard
- Live link: <https://maxxis.com.bd> 🌐
